

Rules:

*If a young girl over the age of 9 Lunar years experiences bleeding for the first time she will abstain from Salaat and fasts of Ramadhaan. If it continues over 72 hours then it will be Haydh.

*If a woman who has experienced Haydh before observes bleeding after 15 or more days of purity (in the days of her usual Haydh habit) she will STOP Salaat and fasting of Ramadhaan. However if bleeding stops WITHIN 72 hours, she will continue Salaat with Wudhu as Ghushl is not necessary and on realising in retrospect (afterwards) that it was not Haydh, she has to observe Qadha of the missed Salaat or fasts of Ramadhaan.

*When bleeding stops (after 3 days or more) it is compulsory to perform Ghushl and commence Salaat and fasts of Ramadhaan. However if bleeding reoccurs WITHIN 10 Days then Salaat and Fasts will again be stopped
