

Exercise 2

1. Which of the following colours can be classed as Haydh?

- ☐ Red *A: If you're asking during usual days of haydh*
- ☐ White *then it's red, brown and yellow.*
- ☐ Brown
- ☐ Yellow

2. Zaynab bled for two days. She then did not bleed for another months. Would this be classed as Haydh or Istihaadhha? *Istihadha.*

3. Hafsa saw bleeding for a day, then nothing for 2 days. Then she had bleeding for another 3 days. What is the ruling for her regarding Haydh/Istihadha? *It would be haydh, she wouldn't have to pray and fast during all those days.*

4. The 2 days in which there was no blood (in the above situation) are termed days as:

- ☒ Hukmi impurity
- ☐ Haqeeqee impurity

5. Zaynab saw a very light streak of colour on the tissue on her 6th day of Haydh. Should she or should she not perform Ghusl and offer Salaat? Explain the answer *She shouldn't make ghusul or pray because bleeding of that color will be haydh if it appears within usual days.*

6. What is a purity of 15 days or more in which there is no Istihadha called?
Tuhr Haqeeqi

7. What is a purity of less than 15 days called?
Tuhr Hukmi , rules of menstruation wont apply here.

8. Define Haydh and Tuhr.
See on pg. # 2 and 3 :)
